## P R E F A C E

The Census of Population, Households and Dwellings was carried out from the 1<sup>st</sup> to the 15<sup>th</sup> of November 2002. The data in the Census forms have been written according to the situation on 31<sup>st</sup> October 2002 at 24:00 hrs, namely at midnight between 31<sup>st</sup> of October and 1<sup>st</sup> of November 2002.

The Census was carried out according to the Law on Census of Population, Households and Dwellings in the Republic of Macedonia, 2001 ("Official Gazette of the Republic of Macedonia" No 16/2001 and changes and supplements to this Law published in the "Official Gazette of the Republic of Macedonia" No 37/2001, 70/2001 and 43/2002).

The methodology, definitions and classifications for this Census are completely harmonized with the Law on Census and the Recommendations for Censuses on Population Households and Dwellings prepared by the United Nations and the Statistical Service of the European Union - EUROSTAT. This ensures the international comparison of the Census data.

The State Statistical Office has announced the first final results of the Census on Population, Households and Dwellings 2002, on 1<sup>st</sup> of December 2003. According to the Census Law, the State Statistical Office is obligated till the end of June 2004, to publish all 12 planned publications for the Census 2002.

This is the twelfth publication (Book XII, Census 2002) which contains 2 tables with data for the total population present in the Republic of Macedonia according to economic activity and sex. The data in the tables are shown on the level of settlements, according to the existing territorial distribution of the Republic of Macedonia.

We expect that, the data contained in this publication and in the following publications will satisfy the most of the users needs for our data. Certainly, for each user who will need another data from the Census, that are not included in the designed publications, the State Statistical Office will make all necessary data processing to satisfy these requests.

Director,  
M. Sc. Donco Gerasimovski

## METHODOLOGICAL EXPLANATIONS

### 1. Time of the Census

The Census of Population, Households and Dwellings in the Republic of Macedonia was carried out in the period from 1<sup>st</sup> to 15<sup>th</sup> of November 2002. The data in the Census forms have been recorded with the situation on 31<sup>st</sup> of October 2002 at 24:00 hrs, namely on midnight between 31<sup>st</sup> of October and 1<sup>st</sup> of November 2002. This date is Census reference date - "Critical moment of the Census".

### 2. Method of enumeration

The Census was carried out by an interview from trained authorized persons (enumerators) with recording the data in the printed forms.

The basic Census forms used in the Census are:

- **Enumeration form (P-1 form)**

for each enumerated person - unit of the Census

- **Questionnaire for household and dwelling (P-2 form)**

for each enumerated household and dwelling - unit of the Census

- **Control form (P-4 form)** - for evidence of all enumerated units

### 3. Units covered by the Census

The Census of Population, Households and Dwellings, 2002 covered the following units:

- **Persons (individuals)**

1. Persons that have place of usual residence in the Republic of Macedonia, regardless of whether at the time of the Census they are present at their place of usual residence or elsewhere in the Republic of Macedonia;

2. Foreigners that have a residence permit in the Republic of Macedonia and they are temporarily present in the Republic of Macedonia at least 12 months (one year), but who have a place of usual residence outside of Republic of Macedonia;

3. Persons that have place of usual residence in the Republic of Macedonia, who at the time of the Census, and for a maximum of 12 months (one year) prior to its conduction, are working abroad, as well as the members of their households;

4. Persons that have place of usual residence in the Republic of Macedonia, and during the time of the Census are working abroad at the diplomatic and consular representative offices of the Republic of Macedonia, the United Nations and its organizations, representative offices or being representatives of the Chamber of Commerce abroad, business offices abroad, military representatives of the Army of the Republic of Macedonia, and citizens engaged on the bases of international, technical and other kinds of co-operation, education, as well as the members of their households that are staying abroad with the aforesaid persons;

5. Persons that have place of usual residence in the Republic of Macedonia, but are not in possession of the documents pursuant to Article 39, item 1 from the Census Law, if they present the documents stated with Article 39 item 3 from the Population Census Law;

6. Foreigners with acknowledged status of refugees, that at the time of the Census are present in the Republic of Macedonia;

7. Foreigners with acknowledged status of a temporal humanitarian protection that at the time of the Census are present in the Republic of Macedonia;

8. Other persons that at the time of the Census are present on the territory of the Republic of Macedonia, except the persons mentioned in the previous two categories.

**PERSONS COVERED WITH THE ABOVEMENTIONED EIGHT CATEGORIES CONSIST THE ENUMERATED POPULATION IN THE REPUBLIC OF MACEDONIA.**

**PERSONS COVERED WITH THE ABOVEMENTIONED CATEGORIES FROM ONE TO FIVE CONSIST THE TOTAL POPULATION IN THE REPUBLIC OF MACEDONIA.**

- **Households** (households of the persons being Census units) and
- **Dwellings** (dwellings, inhabited business premises, improvised living quarters and collective living quarters)

#### **4. Place of enumeration**

The place of enumeration is the place of usual residence of the person-Census unit. As a rule, the persons with a place of usual residence in the Republic of Macedonia that at the time of the Census are absent abroad up to one year are enumerated abroad, at the diplomatic and consular representative offices. The Census abroad was carried out by the Ministry of Foreign Affairs with co-operation of the diplomatic and consular representatives.

Due to harmonization and adjustment of the Census as statistical operation towards the standards of European and World statistics, in the Census 2002 are done certain changes that are in relation of defining of the Census units and calculation of the category total population. The enumeration of the Census units was conducted by **place of usual residence**, and persons with a place of usual residence in the Republic of Macedonia working abroad more than twelve months, as well as the members of their households, were not Census units.

**These changes do not allow a complete compatibility of the data from this Census with the data from the previous censuses.**

#### **5. Place of usual residence**

**The place of usual residence** is the geographic place where the enumerated person usually resides. This may be the same as, or different from the place where the person actually was at the time of the Census, or it may be his/hers legal residence (according to the personal document). A person's place of usual residence understands the place where he/she spends most of his/hers daily or night rest.

In this publication the data from the Census 2002 are presented in 2 tables:

1. Total population in the country at 15 years of age and more, according to the activity and sex
2. Total population in the country at 15 years of age and over: persons that are performing an activity according to the occupation and sex

#### ***Total population***

**THE TOTAL POPULATION IS** consists of:

- Persons that have place of usual residence in the Republic of Macedonia, regardless of whether at the time of the Census they are present at their place of usual residence or elsewhere in the Republic of Macedonia;

- Foreigners that have a residence permit in the Republic of Macedonia and they are temporarily present in the Republic of Macedonia at least 12 months (one year), but that have a place of usual residence outside of Republic of Macedonia;

- Persons that have place of usual residence in the Republic of Macedonia, who at the time of the Census, and for a maximum of 12 months (one year) prior to its conduction, are working abroad, as well as the members of their households;

- Persons that have place of usual residence in the Republic of Macedonia, and during the time of the Census are working abroad at the diplomatic and consular representative offices of the Republic of Macedonia, the United Nations and its organizations, representative offices or being representatives of the Chamber of Commerce abroad, business offices abroad, military representatives of the Army of the Republic of Macedonia, and citizens engaged on the bases of international, technical and other kinds of co-operation, education, as well as the members of their households that are staying abroad with the aforesaid persons;

- Persons that have place of usual residence in the Republic of Macedonia, but are not in possession of the documents pursuant to Article 39, item 1 from the Population Census Law, if they present the documents stated with Article 39 item 3 from the Population Census Law;

### ***Total population in the country***

#### **TOTAL POPULATION IN THE COUNTRY**

**Total population in the country** is the **total population** in the Republic of Macedonia minus the population absent abroad for less than one year working for foreign employer or working independently as well as the members of their households that are staying together with them.

It means that the total population present in the country, except the persons that have a place of usual residence in the Republic of Macedonia and they are present at the time of the Census, includes persons with the place of usual residence in the Republic of Macedonia, but who at the time of the Census are:

- sent for a work at diplomatic, consular and other representative offices of the Republic of Macedonia, at the UN organizations, other missions and international organization, in Macedonian mixed firms and business of the firm from the Republic of Macedonia;

- sent for work abroad for performing civil engineering or other works for a firm;

- sent for studying or specialization abroad;

- persons that are staying as a family members of the above mentioned categories of persons and

- persons absent abroad up to one year for business or private trip, medical treatment and other reasons

### ***Economic activity***

The data of the economic activity refer to the week that precedes the Census.

According to the economic activity, the population is grouped into two basic groups:

- active population and

- non active population

**The active population** consists of persons at 15 years of age and over:

- **persons that are performing an activity** - persons that perform an activity as employees or independently

- **persons that are not performing an activity** - unemployed persons, persons that are looking for a job, as well as persons that have interrupted their employment because of bankrupt of employer/own enterprise, because of serving in military service, serving a sentence in a prison or because of seasonal character of the work.

**An employment, according to the international standards, means every economic activity for salary or other type of compensation, in duration of at least one hour in the reference week.**

It means that the employment doesn't mean only the formal employment but also the other types of work with which the living resources can be obtained.

**Non - active population** consists persons that are not employed, that are not looking for a job and persons that have interrupted their employment:

- housewives
- persons that serve in military service
- persons that serve a sentence in a prison
- pupils, students
- permanently incapable for work
- pensioners and
- other

**Table 1. Total population in the country at 15 years of age and over, according to the activity and sex**

In the Table 1 are presented the data of the total population present in the country at 15 years of age and over, according to activity and sex, at the level of settlements .

**Table 2. Total population in the country at 15 years of age and over: persons that are performing an activity according to the occupation and sex**

In the Table 2 are presented the data of the total population present in the country at 15 years of age and over: persons that are performing an activity according to the occupation and sex, at the level of settlements.

### **Occupation**

The occupation is summary of works and working duties which are according to their content and type organizational and technological so similar and connected that it can perform one performer who has appropriate abilities, titles and policies.

For active persons that are performing an occupation, the occupation is determined according to the type of work that is conducted by the person, and not according to the education and training which that person has.

An occupation of persons is determined according to the usual duties which the persons have performed at the reference week, and for persons that have been absent from work, an occupation is determined according to works and working duties which are usually performed if they would be at work.

If the persons have performed more types of works at the reference week, an occupation is determined according to the work which is performed for the largest part of working time.

During the data processing, occupations were grouped according to the National Classification of Occupations which structure is harmonized with the structure of the ISCO 88. The National Classification is consists of:

- 10 main groups
- 28 under groups
- 115 secondary groups
- 403 single groups

In the Table 2 the data are classified according to the main groups of occupation.
